MOTOBLUR™ SETUP

Set up MOTOBLUR to sync contacts and accounts

When you turn on your phone for the first time, you need to set up **your MOTOBLUR account**.

1. Turn on, select a language and choose **Start**. Choose **Register a new account**.
2. Read the MOTOBLUR Terms of Service. If you agree, check the **I agree** box. Choose **Next**.
3. Enter your name, existing email address and a new MOTOBLUR account password.* When you are finished, choose **Confirm**.
4. To add accounts to MOTOBLUR, tap an account type, then enter the user name or email and password for each account.
5. Decide if you would like to give location consent by checking the appropriate boxes, and then choose **Next**.
6. After you finish adding all accounts, you will receive notification that your AT&T Address Book is ready to use. Tap **Import SIM Contacts** to begin. Select your desired contacts and tap **Import**, or tap **Select All** and tap **Import**. Tap **OK**.

* Password is for your MOTOBLUR account and does not have to match your email account password. Be sure to record your MOTOBLUR password on the in-box sticker.

After your MOTOBLUR account is set up, your contacts from personal and work email and social network accounts will automatically sync, consolidate and update.

Set up Google™ Mail, social networks and other accounts

Tap **App Menu** from home screen > **Accounts** > **Add account**. Select icon to add any of the following accounts to your phone: Google, Facebook®, MySpace™, Twitter™, LinkedIn®, Picasa™, Photobucket™, Last.fm and more. You can also set up multiple personal and corporate email accounts. Corporate email users with Exchange will have Global Address List (GAL).

Visit the MOTOBLUR online owner's portal to locate your phone, delete data, import contacts or get help.

CONNECTIONS - WI-FI & MOBILE HOTSPOT

Wireless Quick Start

To turn on Wi-Fi and scan, use AT&T Wi-Fi hotspots, and find available networks:

Touch **Menu** > **Settings** > **Wireless & networks** > **Wi-Fi settings**.

Tip: Your phone comes with Wi-Fi power turned on. When Wi-Fi is already on, touch **Menu** > **Scan** to see a list of networks within range.

Mobile Hotspot

Turn your phone into a personal Wi-Fi hotspot and share broadband with up to 8 Wi-Fi enabled devices.

Touch **Menu** > **Settings** > **Wireless & networks** > **Mobile hotspot** > **Wi-Fi Hotspot** > **Wi-Fi hotspot settings** > set up and manage mobile Wi-Fi hotspot.

SECURITY LOCK & UNLOCK OPTIONS

Store your biometric fingerprint

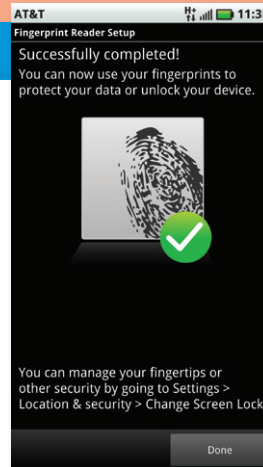

1. Touch **Menu**  > **Settings** > **Location & security** > **Set up screen lock** > **Fingerprints**.
2. Enter a numeric code (in case of fingerprint recognition problems) and touch **Continue**.
3. Enter the numeric code again to confirm, then touch **OK**.
4. Swipe your index finger several times across the Fingerprint Reader until the phone learns your fingerprint.

Set a screen lock pattern

Touch **Menu**  > **Settings** > **Location & security** > **Change screen lock** > **Pattern**.

Lock your SIM card

Touch **Menu**  > **Settings** > **Location & security** > **Set up SIM card lock** > **Lock SIM card** > enter your SIM PIN code (PUK code provided by AT&T).

MULTIMEDIA/DLNA®

Capture/share pictures and videos

Camera:

Capture: Touch **App Menu**  > **Camera** > touch the screen to open options > choose **Front** or **Back**.

Share Photo: Touch **App Menu**  > **Gallery** > **All photos** > touch and hold a photo > **Share** > choose how to share the photo.

Camcorder:

Capture: Touch **App Menu**  > **Camcorder** > touch the screen to open options > choose **Front** or **Back**.

Share Video: Touch **App Menu**  > **Gallery** > **All videos** > touch and hold a video > **Share** > choose how to share the video clip.

Play or transfer media with DLNA

1. Make sure your phone and another DLNA device are both connected to the same Wi-Fi network.
2. Touch **App Menu**  > **Media Share** and follow the prompts.

Tip: To reconnect later, touch **App Menu** > **DLNA**.

PERSONALIZATION

Change display settings	Touch Menu  > Settings > Display .
Customize sound settings	Touch Menu  > Settings > Sound .
Android Market™	Touch App Menu  from home screen > Market  . Touch Search key to search for apps. Touch an app to open its details or install it. Touch Install (if app is free) or Buy . *Enter your Gmail™ address and accept the Terms and Conditions the first time you download an app from Android Market.
Add widgets/shortcuts/folders/wallpapers	Touch and hold an empty spot on one of the home screen panels until the Add to Home screen menu opens. Select the option of choice.
Resize pre-loaded Motorola widgets	Touch and hold until you feel a vibration, then release. Drag a corner to resize.
Auto-rearrange widgets	Touch and hold until you feel a vibration, then release. Drag to a new location. Green shaded outline means it fits; red shade means it doesn't.
Delete an icon/widget	Touch and hold until you feel a vibration, then release. Drag to the trash at the bottom of the screen.

4G speeds delivered by HSPA+ with enhanced backhaul. Available in limited areas. Availability increasing with ongoing backhaul deployment. Learn more at att.com/network

MESSAGING/EMAIL/SWYPE®

Access your messages

Tap the Messages widget on your home screen to view all texts, personal and work email and social network messages.

Compose new messages

Tap **Messaging**  > select the message type such as **Universal Inbox**, **Text Messaging**, **Facebook**®, **Twitter**™ or **Yahoo**™.

Set up your corporate email

To add email accounts, tap **App Menu**  > **Accounts** > **Add account** > **Corporate Sync** > enter your username and password plus server details.

Set up your Universal Inbox

1. Tap **Messaging**  > **Universal Inbox**.
2. Tap **Menu**  > **Edit Universal Inbox** and tap the accounts you want. By default, all accounts are shown until you modify the selections.

Global Address List

Find someone who isn't in your contact list with immediate access to your Exchange directory. Tap **Contacts**  > **Menu**  > **Search** > start typing a name to view a list of results.

Text entry by voice commands and Swype

Voice Input: Touch a text entry field to open the touchscreen keypad > touch the **Microphone**  on the touchscreen keypad > Accept terms of service > Speak your message > Tap **Done** > **Send**.

Swype: Touch and hold a blank spot in the text entry field > **Input method** > **Swype**.

BATTERY LIFE

Get the most out of your battery:

1. Touch **Menu**  > **Settings** > **Battery Manager** > **Battery mode**.
2. Choose the best mode for your needs.

Note: For details, touch the icons to the right of each mode.
