

5818MN

RECESSED DOOR/WINDOW TRANSMITTER

Peace of Mind from People You Trust

5818MNL Recessed Door/Window Transmitter is a magnetic contact sensor that provides concealed protection for doors or windows. With its tapered design and at nearly half the size of standard transmitters, the 5818MNL is another example of how wireless technology is continually evolving to meet customer needs.

FEATURES

- Includes self-contained transmitter and reed sensor
- Virtually disappears once installed
- Easy replaceable AAA Lithium battery
- 0.5" gap (transmitter to magnet)
- Features a tapered cylinder for easy and flush fit
